INSTRUCTIONS AND SOLUTIONS

DAILY PUZZLE™
ARRANGE THE 10 TILES TO MAKE EACH DAY!

AGES
8 to adult

Daily Puzzle™ is a great warm up for the brain day after day, year after year. For a fun start to each day, challenge yourself and your friends to each day, challenge yourself and your friends to display the correct month and date.

YOUR GOAL:

Solve the puzzle by arranging the 10 tiles in overlapping pairs to display the current month and date.

TO SOLVE:

1. Lay out all of the tiles in front of you. Identify the 4 Day tiles and 6 Month tiles.
2. Start with the 6 Month tiles. Flip them horizontally or vertically and arrange them in pairs until they display the 3 letter abbreviation for the current month.
3. Then arrange the 4 Day tiles, in pairs until they display the 2 numbers that make up the current date.
4. Challenge yourself again tomorrow. With a new puzzle each day, it's 365 puzzles in one!

TIPS FOR SOLVING:

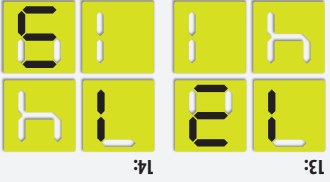

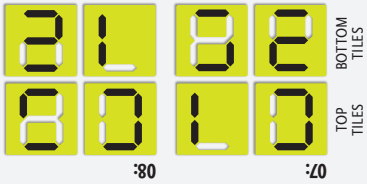

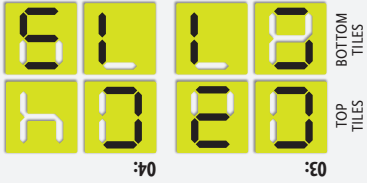

1. Each Letter and Number will ALWAYS be made up of two tiles.
2. The black Puzzle Tray will often show through the tiles to complete a letter or number.
3. The same two tiles will not always make up the same letter or number. For example, the number "2" can be created by using several different tile arrangements.

STILL STUMPED?
